

APA 25TH STREET 3:00 PM STUDENT PICKUP

We are trying very hard to make the dismissal pickup as safe and efficient as possible. Please follow the directions below. They are designed to create an organized movement of all vehicles. Anyone who tries to sidestep the plan will create confusion and frustration for everyone. Please be part of the solution, not part of the problem.

- Students are not permitted to enter cars until they are at the front of the line.
- Cars must stay off of the grass. Stay in the lanes as directed.
- Older siblings (brothers and sisters) in the same building will exit with their younger sibling to make it safer and easier for parents.

#1 (see below) Pickup for students in the classes of Ms. Lusher, Ms. Lee, Ms. Burkholder, Ms. Davis, Ms. Strich and Ms. Vandermark: Line begins on Moore Road. Cars will enter off of Moore Road onto the right (north) lane only. As you pass the small block building, on the right, you will turn right and fill in either the left or center lane. RIGHT LANE MUST STAY CLEAR. Students will be released to their car when it moves to the front of the line as other cars leave.

#2 (see below) Pickup for students in the classes of Ms. Hughs, Ms. Wikins and Ms. Swanson: Line begins on Moore Road. Cars will enter off of Moore Road onto the left (south) lane only. As you pass where the other cars turn right, you will move a little to the right to stay in the right lane. The left lane then becomes traffic coming the opposite way. Proceed single file along the rear of the building until you reach the Southwest exit. Students will be released to their car when it moves to the front of the line as other cars leave. After picking up student, you will loop around to the left and head back in the direction you came in. As you come to the end of the East end of the building, you will be directed by a staff member to wait until it is clear. You will then turn left and exit in the right (east) lane toward 25th street CAREFULLY, WATCHING FOR CHILDREN.
