Title I Support

ISTEP+ Skills and Indiana Standards Instruction

- Starting **Monday, Jan. 23rd**, Title I cadets have the **option** to stay for tutoring until **3:30 p.m.** Parents are responsible to provide for picking cadets up on time.
- **8th period Title I Support: Began August 17th and will continue through May**
- Purpose – To ensure that all children work to learn challenging state academic standards and have the opportunity to receive help to be successful
- Funding for Title I – The funds are received from Federal tax dollars and the amount of funding depends on the economic levels of the community and school.
- Criteria for Selection – Our cadets are chosen for the program by a system that ranks their test scores and GPA and are taken in order of greatest need.
- **ASSESSMENT: Cadets will be tested weekly and then given assignments to help fill the gaps in learning based on Indiana standards in math and language arts.**

How does it work?

- Our program is designed to provide extra math and language arts tutoring in a small group setting, on the computer customized to each cadet, and small group assistance with school assignments that are based on the Indiana academic standards. Title I support for selected cadets takes place during 8th period on Mondays, Wednesdays, and Fridays.
- **SMALL GROUP:** The three groups are small groups of 3-5 cadets that work on a math or language arts lesson, including writing skills to help improve the chance for success with ISTEP+ state testing and academic achievement.
- **COMPUTER BASED:** Small group computer session where cadets work on either math or language arts on designed programs. Each cadet has his or her own Compass Odyssey digital curriculum that can be used at school or at home.
- **SMALL GROUP HELP FOR ASSIGNMENTS:** Cadets work in very small groups with teachers over classroom assignments that are based on standards.

TITLE I IS PART OF OUR INSTRUCTIONAL PROGRAM. IT IS NOT OPTIONAL.

Please contact Capt. John Hayden if you have questions.
